Dear valued customer,

EBARA and SKF have finalized the acquisition but decided to postpone the starting of the production in EBARA to 2024.

SKF will produce, supply and invoice orders until May 2024.

The relocation of machinery will take place in May. Start of production at EBARA is scheduled for October 2024.

In case of any questions regarding current open orders, please contact SKF directly!

EBARA will use this opportunity to improve the products using the knowledge gained over many years in the pump business and offer an updated product range from November 2024.

Please send your new requests to EBARA from now on to the following contact:

Germany, Austria, Switzerland to spandau.pumpen.EPDE@ebaracom,
other regions to spandau.pumps.EPE@ebaracom.

EBARA will work with SKF to find ways to satisfy your urgent new needs before EBARA starts production.

If you are interested in EBARA portfolio of stainless steel pumps please visit www.ebaraeurope.com.
